Through The
'65 Hurricane*

Profiles

We, the Hurricane Staff of '65, outline the outstanding characteristics of this school year through "Profiles." The '65 Hurricane is a collection of the many facets of Marion High. Whether in the administration, the student body, dances, sports, clubs, or classes, our annual will always remind us of the changing profiles of our school. We hope that in years to come, as you change and mature, you will never forget the profiles of our alma mater.

*As I was going through my things
from many years ago,
I came upon a piece of script
that set my heart aglow.*

*It brought back all the memories
of my high school years:
The trying times, the hopeful days,
the shed of joyful tears.*

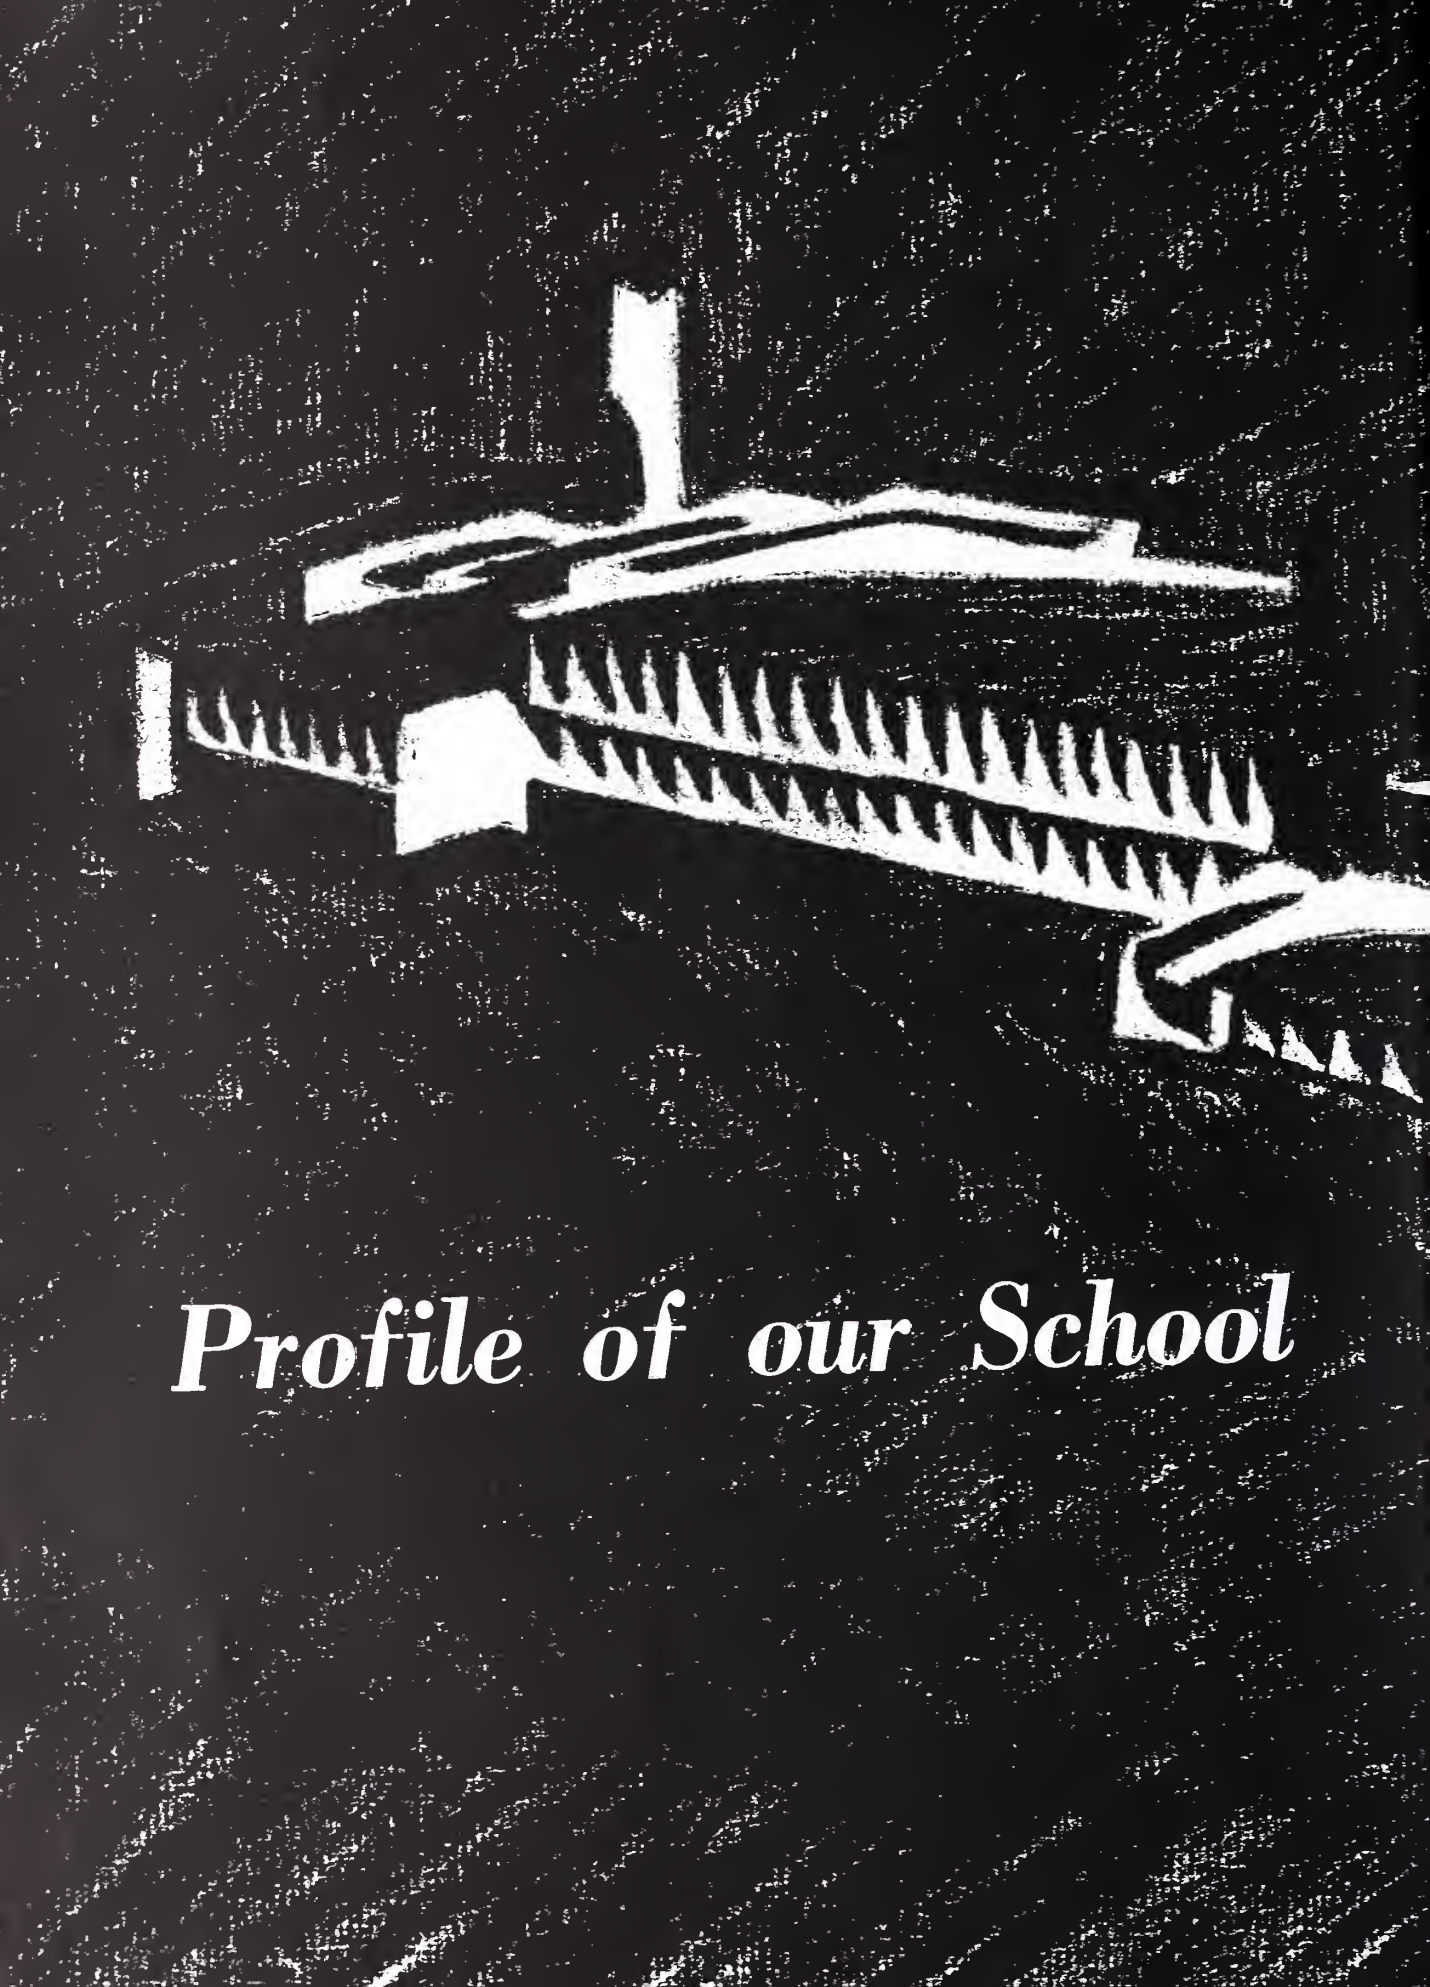

*I see, as I look back on time,
the treasure I possess;
Knowledge is surpassed by none,
this gift is of the best.*

Profile of our School

Profile in Excellence

We honor a person who has shown us that teaching requires not only hard work and determination, but also a sincere interest in both the school and the student. This person's profile, which includes modesty, patience, humor, and fairness in the classroom combined with willingness to help in extracurricular activities, will make her influence a part of our lives throughout the years. We, the Hurricane Staff, express our deep appreciation as we dedicate this, our 1965 Hurricane, to our friend and teacher, Mrs. Sally H. Werth.

Profiles of our Principal

Now a veteran of nearly thirty years of school teaching and administration, Howard Williams began his professional career in 1937 when he graduated from Milligan College. For two years he taught the sixth grade at Harold McCormick Elementary School in Elizabethton, Tennessee. Then he served as principal of West Side School, also in Elizabethton. When Mr. Williams was discharged from the U.S. Air Corps in 1946, he attended the University of Tennessee where he received his M.S. degree. In August 1946 he came to Marion to assume the duties as principal of the Marion Elementary School. In 1951 Mr. Williams became principal of Marion Intermediate School. In 1956 he became principal of Marion High School, and when Marion Senior High was built in 1961, Howard Williams assumed its administrative responsibilities.

Mr. Williams displays one of his busy profiles as he conducts business on the telephone.

Seniors

William Stafford Stephenson
President

Stafford Stephenson, Senior Class President and star basketball player, diligently worked for the senior trip to the New York World's Fair. His close relationship with the students made successes of the Christmas card sales, the serving at banquets, and the many class projects he has led both years as President. As a cager, he piloted the '65 championship basketball team.

Profiles in Learning

"Mrs. Courtney's freshman English class re-enacts a scene from 'A Midsummer Night's Dream'."

"Mr. Herndon shares with his sophomore class the techniques of theme writing."

"The members of Mrs. Schulz's senior class improve their enunciation through the use of a tape recorder."

English

All the English classes study grammar and literature, read required books, and work to enlarge their vocabularies. In the ninth grade emphasis is placed upon correct usage of written and spoken grammar. In the sophomore year emphasis is placed on writing themes. During the junior year the students are introduced to American literature by studying such authors as Clemens, Hemingway, Frost, Steinbeck, Poe, Hawthorne, and Sandburg. The senior English program is based on a correlation of composition and literature through the study of important literary works.

"Miss Wymer's juniors study American literature by learning about Mark Twain."

"Spanish students have a Christmas fiesta."

Foreign Languages

This year M.S.H.S. offered two foreign languages, Spanish and Latin. In teaching Spanish Mr. Henry has been using the audiolingual method. In this method the oral or spoken Spanish is stressed rather than the line-for-line translation and grammar method used in the past. This year audiolingual method has been used along with the traditional method and has been very successful.

Miss Neff's Latin I classes have participated in such varied activities as making Roman calendars and charts in English derivatives. In addition, they have been studying the structure of the Latin language in class. The Latin II classes study the Roman Empire and Caesar's *Commentaries*.

"Miss Neff's Latin Class studies Roman literature."

"Jimmy Webster shows Mr. Henry's Spanish students a Christmas Pinata."

"Miss Neff's Latin students work on their translations."

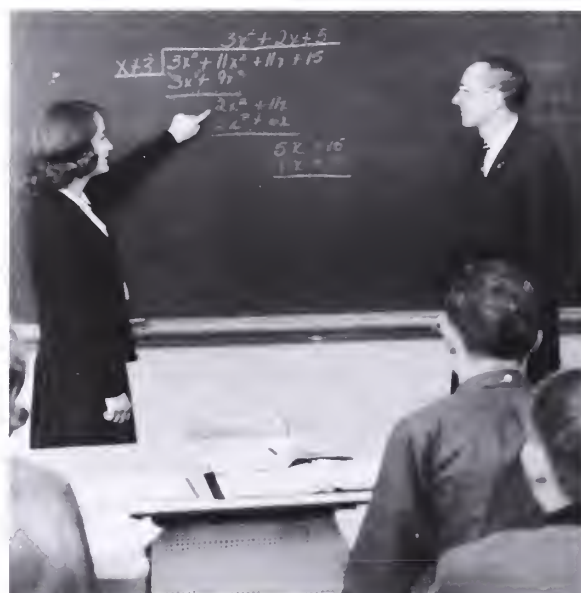

"John Nelson illustrates the graphs of the trigonometric functions."

Included in the Academic Math courses are Algebra taught by Mr. John Fisher and Mr. Bill Earp; Plane, Solid, and Coordinate Geometry taught by Mr. Bill Earp and Mrs. Sally Werth; Trigonometry and Advanced Algebra taught by Mrs. Sally Werth.

Modern Algebra I helps the student to understand some of the basic structures of algebra and to recognize the techniques of algebra as reflections of this structure, not merely as a set of rules to be followed.

The Geometry program includes the study of plane and solid figures. Trigonometry and Advanced Algebra is open to juniors and seniors who have completed two years of algebra and one of geometry. Trigonometry gives the student the basic concepts and skills of the subject. Some of the topics studied are polynomial functions, matrices, determinants, permutations, combinations and probability.

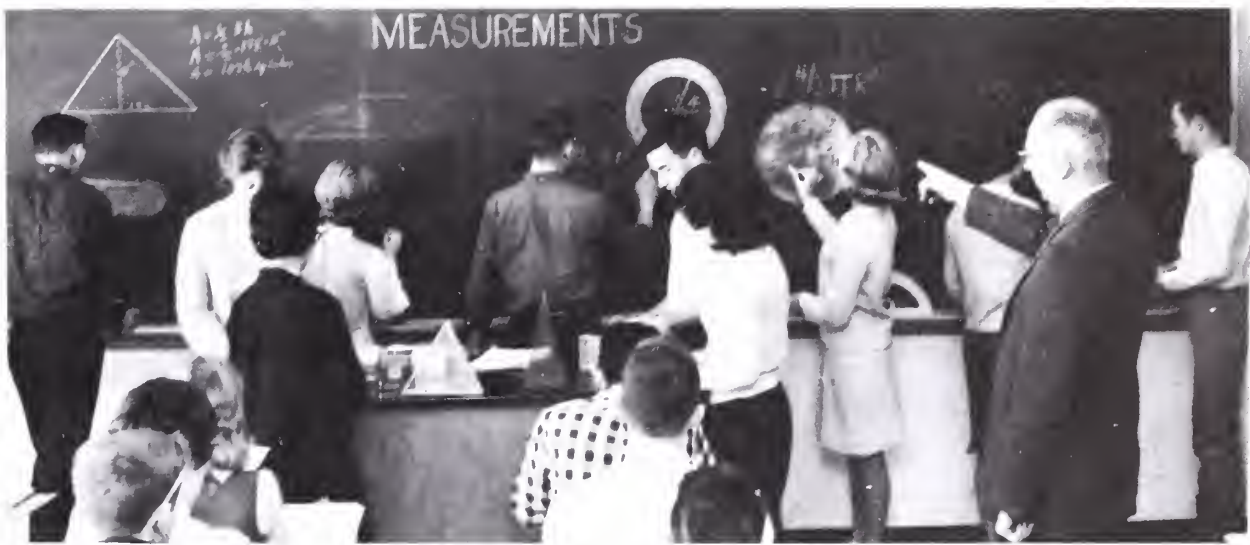

"Mr. Fisher watches as Kay Hancock shows the division of equations."

Academic Math

"Mr. Earp explains geometric figures."

"Mr. McDonald watches as the terminal math students study measurements."

"Mrs. Overbey's bookkeeping class work on their accounts."

Commercial Math

Terminal Math, taught by Mr. Fred McDonald and Mr. John Fisher, is planned for those students in the junior and senior years of the commercial course who need more knowledge in the fundamentals of mathematics and in the application to everyday problems and needs. The course includes units in mathematics and employment, measurement, practical use of algebra, practical problems of the consumer, and finally a brief review of the structure of arithmetic.

The Record Keeping classes study and solve problems in banking, petty cash, budgets, sales-clerking, purchasing, and payroll. The problems are solved on the respective forms to simulate office and business conditions. This course is taught by Mr. Howard Chitwood.

The study of bookkeeping, taught by Mrs. Wilma Overbey, offers the basic procedures to be applied in keeping records systematically and accurately. Good penmanship and neatness are emphasized as students learn the importance of written records to an individual or to a business concern. High school bookkeeping may be used as a basis toward a future career in accounting.

"Mr. Chitwood's business math students practice their division."

"Mr. Harkins points out some of the troubled spots of the world today."

"Mr. Estep's world geography class studies the world globe."

Social Studies

Class discussions, lectures, term papers, book reports, and current affairs help the student in social studies to understand the present by studying the past and to become better citizens through the study of our local, state, and federal governments.

Each student is required to take U.S. History in his junior year. This course is taught by Mrs. Lillie P. Echols and Miss Elizabeth Neff. In the senior year each pupil must take Virginia and U.S. Government taught by Mr. Charles Harkins and Mr. Robert Estep. Sometime during the student's high school career, he must take either World Geography, taught by Mr. Robert Estep, or World History, taught by Mr. Edward Hankla.

"The junior history class studies one of America's great presidents, Abraham Lincoln."

"Mr. Hankla's world history class studies a map of historical periods."

"The chorus practices under the direction of Miss Crawford."

Speech and Dramatics is taught by Mr. Chester Jordan. In the field of Dramatics the class offers Shakespeare's *Hamlet*, backgrounds in the development of our theaters from the Greek theater to the Elizabethan Era to our present day stage drama, and opportunities to work with various school productions. In the Speech field the class offers a chance to develop a good speaking voice, poise, and self-confidence.

The Marion High School Choir, instructed by Miss Mary Crawford, has forty-two members this year. The principal activities of this organization are singing for such school functions as the Thanksgiving and Christmas assemblies.

Art is set up as a three-year course taught by Mrs. Nile Linkous. The students find a way of expressing their creative ability and originality. They design bulletin boards, program covers, posters, and enter state and local art competition. Some find their main interest is crafts, others prefer to work in graphic work or clay.

"Pat Williams and Mrs. Linkous work on a sculpture."

Fine Arts

"James VanHoy gives a speech to the Speech and Dramatics class."

"Through debating these students developed the art of quick recall."

The typing students practice their typing.

Business

Record Keeping Class reconciling bank statements.

The Office Practice students learn to operate various machines.

In the business course students are offered two years of typing. During Typing I, taught by Miss Anne Wolfenden and Mr. Howard Chitwood, the basic techniques for personal and office style typing are taught. The second-year typing is taught by Mrs. Wilma Overbey. By the end of the second year students are required to have a minimum of 50 net words on 5- and 7-minute timed writings.

Two years of shorthand, taught by Miss Wolfenden, prepare the students for stenographic positions. During the second year students learn to make mailable transcripts.

Modern facilities used in the Office Practice class enable the students to become acquainted with conditions which would be found in a business office. Pupils have routine practice on adding machines, rotary calculators, electric typewriters, dictating and transcribing machines, duplicating and mimeographing machines. This course is taught by Mrs. Wilma Overbey.

General Business is taught this year by Mr. Howard Chitwood, Mr. David Henry, and Mr. Ronnie Randolph. This course gives students an understanding of the terms and problems of the business world by studying banking, insurance terms, transportation, and communication.

"The General Mechanics students learn about various mechanical tools."

"The Agriculture class watches Mr. Robinson demonstrate a torch."

Vocational Courses

Vocational courses at M.S.H.S. are agriculture taught by Mr. Sterling Robinson, General Mechanics taught by Mr. D. B. Waddle, Mechanical Drawing, Industrial Arts, and Auto Mechanics taught by Mr. Lloyd Vicars, and Home Economics taught by Miss Norma Wallace.

Home Economics is a course offered to girls who desire a knowledge of homemaking and family living. It is set up as a three-year course.

Mechanical Drawing students learn the proper use of drafting instruments. In Industrial Arts the students learn the proper use of both hand and power tools. They construct useful projects in wood while they learn. In second year the pupils study the internal working parts of the auto.

Agriculture students study farming and agricultural business. Methods of producing crops and livestock are also taught.

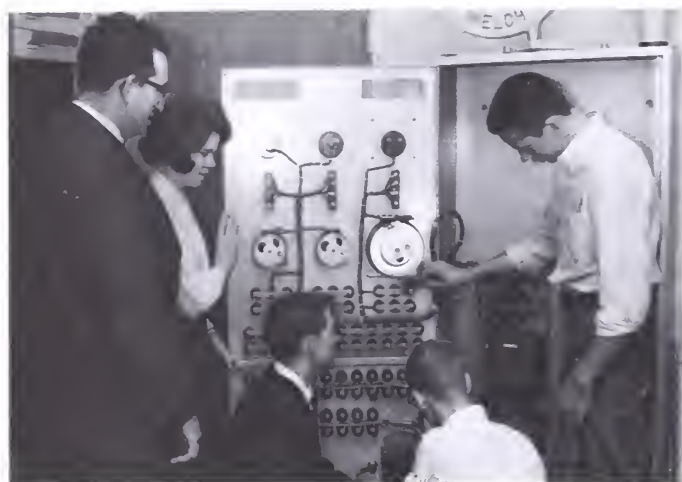

"The Home Economics class watches Francis Ailee Jones mark a dress."

"The chemistry class performs an experiment."

Science

"Several physics students study an electric system."

Students at M.S.H.S. are required to take a course in biology taught either by Mrs. Jane Waters or Miss Marlene Sadler. During the year the class studies the anatomy and physiology of animals ranging from one-celled protozoans to the many-celled human.

The Chemistry Department offers modern facilities for experimenting in the scientific world. Lectures and experiments are supplemented by visiting speakers who help to increase the students' interest in chemistry. This course is taught by Mr. Jack Cox.

Physics, the study dealing with matter, energy, and the transformations of energy, is taught by Mr. Harlan Pafford. This physical science brings mathematics and science together for study of such topics as matter and energy, force and motion, heat, sound, light, and direct current electricity.

"The biology class watches a film entitled 'The Cell'."

"The Biology II class members work on their various projects."

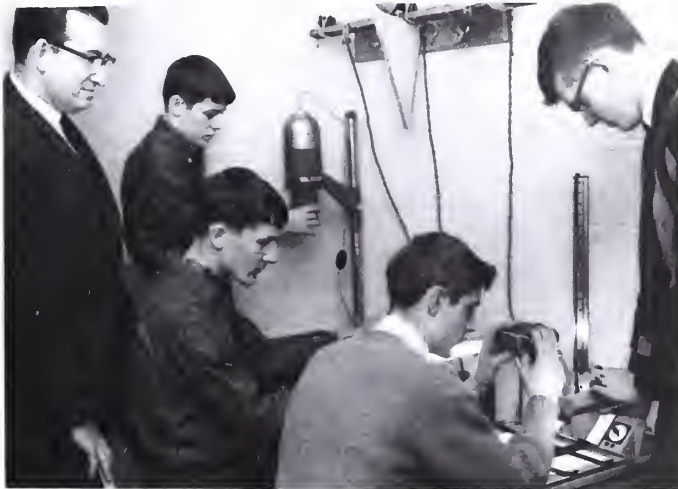

Advanced Subjects

Advanced Mathematics taught by Mr. Harlan Pafford gives the student a review of the elementary number theory and a second look at trigonometry. New material is presented on probability and statistics, analytic geometry, and a small amount of calculus.

The second year of biology, taught by Mrs. Jane Waters, is designed for a review and a more extensive study in human anatomy and physiology trying to include the rapid advances being made in this field.

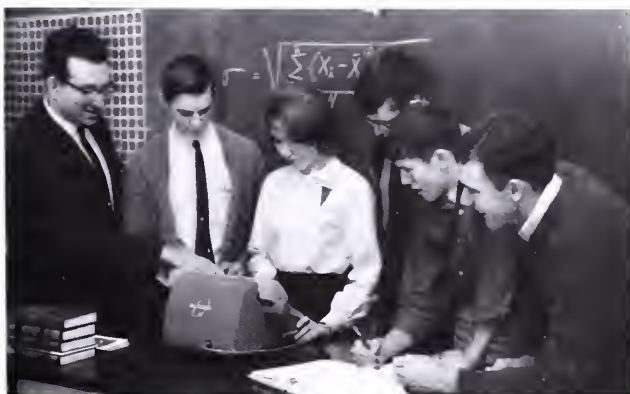

Advanced Chemistry is being offered for the first time at M.S.H.S. It is open to students who have completed the regular course and are planning to continue their study in college. It is taught by Mr. Jack Cox.

Advanced Physics is a course offered to those who have completed the regular physics course offered at M.S.H.S. and who wish to take advanced training either in general physics or in some special branch of physics which suits their particular interests. The instructor is Mr. Harlan Pafford.

"The Advanced Physics students are learning to develop film."

"The Advanced Math class studies a calculator."

"The Advanced Chemistry students perform an experiment using the bell jar."

"The boys' physical education class learns the techniques of wrestling."

Physical Education is required of freshman and sophomore students. In the freshman year both the boys and the girls study Drivers' Education. In the sophomore year the students study Mental Health. To supplement the classroom study the classes have had outstanding films on physical fitness and drivers' education. Also the students have heard a guest speaker on the topic of alcohol and will have a speaker on the subject of psychology.

During the year the boys participate in football, basketball, volleyball, wrestling, bowling, handball, softball, track, golf, and archery. The girls play hockey, volleyball, battleball, handball, shuffle board, archery, badminton, and softball.

New Subjects

Journalism, taught by Mr. Edward Hankla, is a newly organized class which enables students to test their interest in public affairs and their liking for a career in journalism. Another major objective of the journalism course is helping the students to become intelligent readers as well as to soundly evaluate a newspaper to which they are constantly exposed.

Although Distributive Education has been taught for several years it has changed greatly. This course taught by Mr. Ronnie Randolph refers to vocational education for those engaged in distributing goods and services to the public, including all retail, wholesale, and service occupations.

This year the girls in third-year Home Economics and the boys in fourth-year Agriculture exchanged classes for six weeks. The girls learn the basic elements of agriculture from Mr. Sterling Robinson while the boys learn about keeping a home from Miss Norma Wallace.

“We Pause To Honor”

In Memoriam

As we pause to pay tribute to our friend and teacher, our hearts are filled with mixed feelings. We are saddened by the thought of one in the prime of life being taken so soon; yet we know that it is not the length but the fullness of life that really counts. His was a life spent in service to others—at home, school, and church.

Mr. Hankla is not to be mourned; he is to be remembered—because that is the way he would have wanted it. His Christian influence will live on in the lives of those he inspired. He does not need a monument; he already has one in the hearts of those he helped and loved.

Library

The Senior High School Library Club endeavored to achieve the following things for the students:

1. To offer reading guidance. A pupil's growth in reading depends largely on his opportunity to use varied materials and to choose, with guidance, those which are appropriate for his own abilities, interests, and improvements.
2. To assist pupils with reference work and research.
3. To offer instruction in how to use the library.
4. To contribute to personal growth. The library is an area in the school where pupils learn to share facilities and materials, to assume personal responsibility as they serve each other as library helpers, and to observe regulations for borrowing books and other materials. By recommending appropriate reading material, we may frequently help the student solve his problems.

Profiles in Retrospect

On August 31, 1964, students of Marion Senior High School returned to school to begin another year of hard work. They gave up their carefree summer days without enthusiasm, but with a willingness to settle down at once.

Marion played host to the Chilhowie Warriors on September 4 at the first football game of the season. Even though we were defeated by a 12-7 score, the team strived even harder to bring future victories.

Our thoughts were centered on college as we talked with representatives of various colleges on College-Career Night, September 23. The dreams we had always carried of going to college were now becoming realities.

On September 26 the senior class was televised on Klassroom Kwiz from Channel 7, WDBJ-TV Roanoke, Virginia. Judy Cook, Kathy Prose, and Danny Broskie represented the class. The sixty dollars which they won was applied on the senior trip.

"Hurricane Hits," the annual Variety Show, began Homecoming weekend on October 15. Due to rain, the football game had to be postponed. Our spirits, however, were not dampened. Everyone turned out for the Homecoming dance on Saturday night, October 17, to see Rita Helton, attended by Nena Lemmon, Judy Warren, Claudine Blevins, and Mary Mauck, crowned queen.

On November 6 Marion defeated Saltville by a score of 34-0, thus ending the football season with a record of 6-4.

Coach Harkins led his basketball squad to victory on December 6 when Marion defeated Abingdon by a score of 66-57. The beginning of an exciting basketball season for the Hurricane was underway.

The holiday festivities got underway on December 12 when the Christmas dance, "Blue Christmas," was held in the school cafeteria. Judy Barker and Curtis Copenhaver reigned over the gala event.

School was dismissed on December 22 for a well-deserved vacation. Before we realized it, January 4 was on us and we returned to school to settle down once again.

In January the seniors won \$100 from High School Bowl on WOLD radio station. Representing the class were Mary Page Williams, Lewis Pugh, Jane Kirby, and Don Leonard.

Snow and bad weather kept us out of school several days during February. This was an unexpected, but welcomed vacation. Even though everyone knew that the time had to be made up in the spring, we took advantage of the time to take in a few sleigh-riding parties.

Coach Weaver and his matmen ended in February a successful 1964-65 season with a 8-6 standing.

The crowning of Joan Bear and Eddie Evans as king and queen highlighted the Valentine dance entitled "Dear Hearts" on February 13.

On February 19 the regular season of basketball ended when the Hurricane defeated Tazewell giving Marion a standing of 17-1 and the district championship. We now had the right to journey to Lynchburg on March 5 where we were defeated for the regional crown by E. C. Glass.

"You Can't Take It With You," a three-act comedy, was presented by the senior class on April 2. Holding the leading roles were Mary Etta Sayers, Doug Volz, Mike Robison, and Judy Cook.

Spring found us engaged in the regular activities such as baseball games, track meets, and on May 1, the junior class entertained the seniors at the Junior-Senior prom.

On May 10 the seniors left for Washington and New York. We felt especially privileged to have been the first senior class ever to accomplish this feat. The week held experiences for each of us, many of which we will never forget. A tired-but-happy group of seniors returned to Marion on May 16, ready to prepare for their final days as students of MSHS.

The biggest night of our lives came on June 3 when we received our diplomas. We all felt a deep sense of pride and relief because we had finally attained one of the most important goals of life.

As we, the seniors of Marion Senior High School, leave these sacred and beloved walls, our hearts are filled with many memories of the friends we have made and with gratitude to each of our teachers who helped us through those trying times and became the closest and most-beloved of all our friends. Though we leave, our hearts will forever return to MSHS where we spent "the sweetest time of life."

**WAITING

The inventions of Thomas Edison have affected the lives of people everywhere. They have created entire industries — ours, for example.

Under America's Free Enterprise system, inventive people like Edison can expect special compensations — profit, honor and satisfaction.

The hope of attaining such rewards has been one of our nation's greatest incentives to progress. It is a goal that prods imaginative minds in their quests for new products and methods.

Not everyone can be a Thomas Edison. However, every trained, dedicated graduate can anticipate a full measure of our society's rewards.

Concluding Profiles

Through Profiles, the Yearbook Staff has tried to capture the many faces of MSHS before she turns again to face a new year. Profiles will continue to change throughout the years, but this book will hold fond memories of "the hours we spent within thy walls" and will truly "lead our thoughts to school-days, the sweetest time of life."

"Oh, never may a shadow fall upon thy ever cherished name. Oh, never may thy sons and daughters bring thee reproach and shame. Before us as a flaming beacon that guides the wanderer to shore, Thou Marion dost lead us, our guide forevermore."
